The Continent and local operators were heavy sellers there to-day and. Egypt is also understood to have higuidated agood deal of cotton. There was very heavy selling here by the South, Wall Street and outside operators, largely on stop orders. On the decline there was a good deal of covering of shorts and also not a little new buying. It is a fact beyond dispute, however, that there was a good deal more anniety to sell than to buy and the last prices were therefor; about the lowest of the day. It was a day of very heavy liquidation on both sides of the water. At the same time the spot sales in Liverpool were heavy, and in spite of the share reaction prices are still a good deal higher than they were ten days ago, and there are intimations that although the decline may go still further under the pressure of a large long interest here and abroad, wet the bull campaign is not over by any means. The bulls point to the premium on May of 15 points over August and arene that it would be the most natural thing in the world if May shorts should have something of the experience which March shorts had to undergo. The course of the market to-morrow will be governed very largely by Liverpool advices. These are expected to show a further decline. an old ne. It will not flood any lands not now under water and Mr. Middleton is in no wise interested in it.

Austin Wadsworth, nominee for President of the Commission, is the object of the other attack, to this effect: that he has been convicted and fined in this State for violation of the game laws. Mr. Wadsworth, who is President of the Boone and Crockett Club, an organization which expels a member for any violation of sportsmanship, says merely that some time ago he was guilty of a technical violation of a local ordinance of which he was totally ignorant, an ordinance which, in the open season, established a special game protection for Livingston county. As soon as the matter was brought to his attention he paid a \$10 fine. If his political enemies can make any capital out of that, he says, they are welcome to it.

It is said in Albany that the confirmation of the new commission is being fought by a lumber lobby and a cold-storage lobby. There is a pretty well-settlest impression that the new commission will enforce the laws, and the legal preservation of the Adfrondack forests against the lumber cutters would be a blow to the lumber interests even more severe than the insistence upon the law forbidding the selling or possessing of game in the closed season would be to the cold-storage people.

MAY HAVE OR SELL FOREIGN GAME. State Game Laws Held by the Courts Not

to Apply to Importations From Abroad. August Silz, an importer of game, whose store is at 85 Barelay street, was convicted in the Court of Special Sessions on Feb. 15 of having in his possession and offering for sale ten wild deer. The prosecution was set on foot by George O. Shields, President of the League of American Sportsmen. The attorneys for Mr. Silz contended that the Forest, Fish and Game law of the State of New York was unconstitutional, so far as game imported from fereign countries was concerned. The prosecution admitted that the game in question had been killed in England and imported by Mr. Silz, and that he had paid to

increase the number of control of \$2.800 and subject to \$455.04 and that he had paid to the United States Government a duty thereon according to the requirements of the tariff. The Special Seasons Gourt refused to gray upon the question of the constitutionality of the Game law, and, accordingly, tought the decident's attorneys, subsequently discovered that Justice Lambert, one of the Justice Constitution and void of the State Constitution and void of first a major in partition of estate of Joseph Conflicts, the Game Law and the
